SUMMARY

IT Engineering student with commercial experience in System Administration, DevOps, and Cloud Computing. Engineered automated "Environment as a Service" platforms, managed Linux infrastructure, and implemented CI/CD pipelines. Cisco & SoftServe certified. Seeking a Junior DevOps role to build resilient systems.

PROFESSIONAL EXPERIENCE

DevOps Engineer Intern, *Helix Solutions Sp. z o.o*

04/2026 – 08/2026
Rzeszów, Poland

- Engineered a custom Docker Manager in C# to automate Windows container lifecycles, enforcing hardware quotas and configuring persistent volume binds.
- Developed a microservice restoring 1.5GB .bak files into isolated MS SQL databases on the fly with dynamic connection string injection.
- Implemented dynamic reverse-proxy routing and resolved CORS conflicts using Traefik.
- Designed a container state reconciliation loop and a 2-phase TTL garbage collector to manage host resources and eliminate zombie containers.
- Tech Stack:** C# / .NET 10, Docker, Traefik, MS SQL Server.

System Administrator & DevOps Intern, *KAMLEGIT*

03/2025 – 07/2025
Rzeszów, Poland

- Administered Linux servers, managing system configurations, secure SSH access, and UFW/iptables rules.
- Developed Python/Bash scripts for routine system maintenance, log rotation, and backups, reducing manual overhead.
- Managed deployment and monitoring of LAMP/LEMP stack environments for high-traffic WordPress platforms.
- Tech Stack:** Linux, Python, Bash, Nginx/Apache, MySQL.

PROJECTS

Python System Monitor API, *Docker, GitHub Actions, REST API, Python*

- Developed a containerized Python microservice (REST API & Web UI) for real-time tracking of CPU, RAM, and Disk metrics.
- Orchestrated the environment using Docker Compose with slim images and automated health checks.
- Engineered a CI/CD pipeline via GitHub Actions to automate code linting and continuously deploy images to GHCR.

SKILLS

OS & Scripting — Linux (Ubuntu/Debian), Bash, Python | **Cloud & DevOps** — Docker, AWS, Terraform, GitHub

Actions, Traefik, Nginx, Apache | **Development & DBs** — C# / .NET 10, MS SQL Server, MySQL, Git |

Networking & Security — CCNA-level Routing & Switching, SSH, UFW/iptables

EDUCATION

BSc in Computer Science (Informatyka - studia inżynierskie),

Wyższa Szkoła Informatyki i Zarządzania (WSiIZ)

GPA: 4.3 / 5.0 | **Focus:** Data Science, Cloud Technologies & DevOps

10/2023 – 03/2027
Rzeszów, Poland

CERTIFICATIONS

SoftServe — CyberSecurity Fundamentals, Database Fundamentals (2026) | Python Fundamentals, DevOps I & II (Linux, Networks, CI/CD, Cloud) (2025-2026)

Cisco — Linux Essentials, CCNA: Introduction to Networks (2024-2025)

LANGUAGES

Polish — B2+ | **English** — B2 | **Ukrainian / Russian** — Native | **German** — B1
